Our ski card links 5 ski areas and 3 tourism regions!

Hello and welcome

We are five exciting winter sports areas in the snow-blanketed mountain landscapes of Upper Styria. Our »Schneebären Card« links the Ausseerland-Salzkammergut, the Gesäuse national park and the Schladming-Dachstein holiday region.

Together we offer 128 kilometres of terrific pistes and endless expanses for free riding – our offering is personal, unspoilt and budget friendly, though we are constantly investing in new facilities.

Our day ski cards

are valid for this Schneebären ski area, where you buy it.

Our multi-day cards

are valid in all five ski areas and highly recommended for your winter holiday. It's entirely up to you to decide which is your favourite Schneebär area today. :-)

Schneebären Card

All local residents and guests who want to ski frequently and whenever they feel the urge – without thinking about day card prices – are advised to purchase one of our Schneebären Card.

Especially good value are our **new U25 card** and our packages for families, children and partners. You can save up to 40% on regular prices if you buy in advance before 15.12.2024! Your favourite Schneebär will be happy to advise you and wishes you wonderful sunny days with an abundance of powder.

Yours, schneebären :)

Loser Altaussee

»Your mountain. Moment«

Fog-free panoramic views of Ausseerland and nearby Upper Austria tempt you to enjoy winter in the snowy ski resort in Altaussee. With its 34 kilometres of pistes and more than 1,000 metres of altitude difference, the Loser is an Eldorado for winter fans.

NEW from 2024/25: The 10-person panoramic lift offers a breathtaking panoramic view and allows undisturbed fun on the slopes without long waiting times. Skiers, tobogganists and winter hikers can reach the mountain guickly and comfortably on the barrier-free lift. Beginners and advanced skiers alike will find plenty of space to glide, carve and turn on optimised pistes.

Tobogganing fun for the whole family on the 7 km long panoramic road, action on the wave run and fun in the freeride areas round off the winter experience. The high-altitude hiking trail at 1,600 metres invites walkers and snowshoe fans to enjoy panoramic excursions. Cosy ski huts directly on the slopes tempt you to stop for a bite to eat while enjoying the magnificent views.

Thanks to the new gondola lift, the ideal altitude and full snow coverage, you can enjoy fun on the slopes from the first snowfall into spring, even outside the high season.

Die Tauplitz

»A place that fills your heart with joy«

Fantastic carving ...

Lots of snow, sunshine in abundance and 360° panoramic views: Die Tauplitz is a spectacular natural setting. The biggest independent ski area in Styria, also boasting some of the best freeride terrain you can imagine and on top of that, beautiful winter hiking paths.

There is something for every skier and snowboarder on 43 kilometers of piste, mostly above the tree line: there're sporty and long runs on the 8-seater Mitterstein gondola lift for all those who have the power and ability. And there's gentle curves on wide, snow-rich slopes of the Lawinenstein and Schneiderkogel for families and all those who want to enjoy more comfortable and relaxed skiing. That's why we get winner in the skiresort.de category for »Best ski areas up to 60 km of slopes« in 2024.

Skidepot

In our valley station Tauplitz we welcome you with comfortable ski depots. Thanks to locker heating, your skiing day begins with dry ski boots and warm toes – super comfortable and never carry your equipment again!

Ski Riesneralm »Riesner's insider-tip«

At Riesneralm, it is not the length of the ski circuit that will grab your attention, but rather the unique and exceptional range of services that are on offer. Compact, varied and of the highest quality, Riesneralm definitely deserves to be counted amongst the top Austrian Ski Resorts in its field.

There is something special for everyone at Riesneralm; whether it's the 1st Austrian Ski Circuit for Children and the fantastic ski school "Magic Snow" or the rest of the mountain which boasts 32 km of ski pistes, 4 descents to the valley floor and an extensive free-riding area. The needs of every family member are catered for here! And we hold true to our motto: "More ski time – less lift time!" – how appealing! Riesneralm is an ecological trend-setter: innovative, environmentally friendly and forward-thinking – distinctive and unique in the ski sector! It has built its own snow-making power station that generates both electricity and snow! This symbiotic relationship between the production of eco-electricity and snow means that the generated electricity covers the consumption. This innovative use of energy has led to Riesneralm becoming the only ski region in Austria to be awarded the Gold Trophy for sustainable energy management. A particular highlight is the panoramic restaurant "Hochsitz",

found at the summit! This stunning building combines great design and breath-taking views! And on a final note (literally), every week fantastic live music is played here – what better way to round off a great day's skiing.

NEW this winter 2024/25

The Riesneralm is investing in the expansion of the children's ski area. This makes it the largest children's ski area in the Schladming-Dachstein region and one of the largest in Austria. With the new 168m-long KISI-DONNER conveyor belt, new piste areas and ski school centre in the middle of the children's ski area, children will experience maximum comfort and professional supervision. Two entrances to the children's ski area ensure a smooth start to skiing fun. A publicly accessible, spacious lounge at the Tellerblitz, toilet facilities, snack vending machines and a rest area for mothers with babies (including nappy-changing facilities) are also available.

Planneralm »Highest situated ski village of Styria«

The Planneralm has significantly invested in the ski area. From the beginning of December, winter holidaymakers can now enjoy the best snow conditions at this special altitude.

This is ensured by the new and innovative snowmaking system, which provides all the natural snow with a perfect base layer early on. The children's area has also been redesigned and made much larger.

The smooth pistes and powder snow opportunities around the highest ski village in Styria have been popular with children, beginners, seniors and pleasure skiers for over 100 years.

At 1,600 to 2,200 m above sea level, the snow is particularly crystalline well into spring. The Easter holidays are usually the final highlight of a long season, with still enough snow and lots of sunshine.

Those who want to refresh their technique or acquire new skills on skis and snowboards will find highly qualified trainers in the ski- and freeride school. The beginner's area has been doubled in size and new lifts offer much more opportunities and comfort.
